CRLE 2000 - Cyber Resilience May 14-17, 2024

Online GoToMeeting

Organizations today are confronted by a wide range of cyberattacks, and your organization is no exception. There are countless opportunities for hackers to cause massive disruptions, all of which will require a response that will involve you. That's why this course is an absolute must. More than just another statement of the problem, Cyber Resilience for the Business Continuity Professional is an information-packed three-day experience that will provide an understanding of how to address cyber disruptions within a business continuity framework.

You'll discover how business continuity and cybersecurity must integrate within every organization, using the five elements of cyber resilience: prepare/identify, protect, detect, respond, and recover. Collectively, these concepts and the resulting action plans will help to develop a strategy to effectively respond to unforeseen events and get your organization back up and running as quickly as possible. These two traditionally separate functions must work together, and with this course, you'll be able to take steps to make that happen in your organization. Doing so will streamline well-coordinated identification and response to attacks or data breaches, minimize costs, protect the organization's reputation, and give you the professional advantage of bringing the most current information and skills to the table.

DRI CANADA Symposium

Hilton Lac-Leamy
3, Boulevard du Casino
Gatineau, QC J8Y 6X4
07:30 AM - 06:30 PM EST

DRI Canada is dedicated to providing continued professional development for its certified professionals through a variety of opportunities. Join us for a full day of bilingual presentations that are meant to leave you informed, inspired and engaged.

The symposium is a one-day event specifically designed for senior-level business continuity, disaster recovery, cyber resilience and risk management professionals. This symposium aims to provide a dynamic and interactive platform for leaders to explore innovative strategies, share best practices, and discuss the latest trends in business continuity management.

During this immersive event, participants will have the opportunity to engage with like-minded professionals and thought leaders from diverse sectors. The symposium will foster collaboration and knowledge exchange, enabling attendees to enhance their skill sets and stay ahead in the rapidly evolving field of business continuity.

Join us for the first DRI Canada symposium, where senior-level business continuity professionals gather to share expertise, learn from each other, and shape the future of resilience. Together, we can build a community of empowered professionals who drive organizational preparedness and ensure the continuity of critical operations in the face of adversity.
