

Calendar of Events

February 12, 2026	<p>DRI Canada Professional Development Luncheon - Vancouver</p> <p>Westin Bayshore</p> <p>11:30 AM - 01:30 PM EST</p> <p><i>The DRI Canada Board of Directors is pleased to host a professional development lunch in Vancouver, BC, February 12, 2026 for certified professionals.</i></p> <p><i>Speaker:</i> <i>Cynthia Wenn, CBCP</i></p> <p><i>Over the last thirty years, researchers have studied how system behaviours change as they become more complex. If crises or disasters are seen as complex environments, then to prepare our teams to respond to them, it would follow that simulation exercises must also be designed as or designed to mimic the behavior of a complex environment.</i></p> <p><i>This presentation will share how exercise design practitioners are leveraging complexity thinking and provide insight on when, why and how you can modify the complexity of your exercise environment. It will end by delving into the benefits of this to organizations and players.</i></p> <p><i>Learning objectives of the presentation:</i></p> <p><i>Explain complexity thinking and complex adaptive systems in basic terms</i></p> <p><i>Determine when to increase the complexity of exercise design</i></p> <p><i>Adjust both scenario and conduct exercise elements to match the objectives of your exercise</i></p>

DRI Canada Day in Jacksonville
02:00 PM - 05:00 PM EST
Join DRI Canada in Jacksonville – Baseball, Sunshine, and Canadian Networking

*Sunday February 22, 2026
2:00 departure from hotel
Vytar Ballpark - Home of the Jacksonville Jumbo Shrimp, affiliate of the Major League
Baseball (MLB) team the Miami Marlins*

*Heading to the DRII Conference in Jacksonville? Start the week by connecting with
fellow Canadians before the conference begins.*

*DRI Canada is hosting a pre-conference gathering on Sunday afternoon at the JAX
College Baseball Tournament, where we have a private box for the game. It is a relaxed
opportunity to connect with Canadian colleagues, meet new certified professionals, and
enjoy a bit of Jacksonville before the conference schedule starts.*

*Whether you are attending your first DRII Conference or reconnecting with long-time
peers, we invite you to join us for an enjoyable afternoon together.*

CRLE 2000 - Cyber Resilience March 2-5 2026 Online

Online

09:00 AM - 05:00 PM EST

Instructor: Ann Wyganowski

Organizations today are confronted by a wide range of cyberattacks, and your organization is no exception. There are countless opportunities for hackers to cause massive disruptions, all of which will require a response that will involve you. That's why this course is an absolute must. More than just another statement of the problem, Cyber Resilience for the Business Continuity Professional is an information-packed three-day experience that will provide an understanding of how to address cyber disruptions within a business continuity framework.

You'll discover how business continuity and cybersecurity must integrate within every organization, using the five elements of cyber resilience: prepare/identify, protect, detect, respond, and recover. Collectively, these concepts and the resulting action plans will help to develop a strategy to effectively respond to unforeseen events and get your organization back up and running as quickly as possible. These two traditionally separate functions must work together, and with this course, you'll be able to take steps to make that happen in your organization. Doing so will streamline well-coordinated identification and response to attacks or data breaches, minimize costs, protect the organization's reputation, and give you the professional advantage of bringing the most current information and skills to the table.

CBCP & RIMS-CRMP Exam Prep Bootcamp: Mastering Business Continuity & Risk Management

VIRTUAL

10:00 AM - 05:00 PM EST

Track: Risk Management/Business Continuity

Course Title: CBCP & RIMS-CRMP Exam Prep Bootcamp: Mastering Business Continuity & Risk Management

Course ID: RIMSBCP501

Relevant Certifications: (requires additional step): ABCP, CBCP, CBCV, CFCP

Duration: 4 Days (4 full days of instruction 10:00 a.m. – 5:00 p.m. (eastern); Examinations online at your leisure)

32 Continuing Education Activity Points (CEAPs) may be awarded towards recertification.

The cost of this course includes both the course and exams.

A certificate of completion for the course will only be delivered once the exam is completed and payment has been received. Exam results will then be released.

Cost: \$3,700.00

Description

Ready to stand out in the fields of business continuity and risk management? This intensive 4-day program is your gateway to achieving two prestigious certifications: the DRI Certified Business Continuity Professional (CBCP) and the RIMS-Certified Risk Management Professional (RIMS-CRMP).

With DRI International's Certified Business Continuity Professional (CBCP) certification, you will achieve global recognition as a leader in the business continuity and disaster recovery industry. The CBCP validates your expertise and skills, showcasing your ability to manage and lead in times of crisis. The ABCP, CBCV and CFCP certifications are also available depending on your experience.

The RIMS-Certified Risk Management Professional (RIMS-CRMP) is the only competency-based ANAB-accredited risk management certification in the world. The RIMS-CRMP validates that you are a risk leader who can strategically manage risk and create value for any organization.

Why choose this program?

- *Dual Certification Advantage: Expand your career opportunities and demonstrate a deep understanding of business continuity and risk management by preparing for two in-demand certifications simultaneously.*
- *Expert Instruction: Learn from experienced instructors who bring real-world insights and deep knowledge of business continuity and risk management.*
- *Interactive Learning: Engage in interactive exercises, case studies, and group discussions to reinforce key concepts and test your knowledge.*
- *Comprehensive Study Materials: Access high-quality study guides, practice exams, and other valuable resources to support your preparation.*
- *Networking Opportunities: Connect with like-minded professionals and industry leaders in a collaborative environment.*

Take the ultimate step towards professional growth and recognition. Earn this dual certification to set yourself apart in today's competitive landscape.

Testimonials

"This course exceeded my expectations. The two instructors were very knowledgeable, professional, and presented the material in ways that made it understandable..."

"Excellent trainers and course material."

Objective

Business Continuity -

1. Review The Professional Practices for Business Continuity Management body of knowledge designed to assist in the development, implementation, and maintenance of business continuity programs
2. Highlight the terms and methodologies presented in The International Glossary for Resiliency and the Professional Practices
3. Prepare you for the DRI Qualifying Examination

Risk Management -

1. Understand the five competency domains of RIMS-CRMP
2. Apply the five competency domains of RIMS-CRMP
3. Become a better risk professional
4. Understand the components of the RIMS-CRMP certification
5. Start an action plan to obtain the certification (includes exam preparation)

Outline

Business Continuity -

Lesson 1: Program Management

- Establish the need for a business continuity program.
- Obtain support and funding for the business continuity program.
- Build the organizational framework to support the business continuity program.
- Introduce key concepts, such as program management, risk awareness, identification of critical functions/processes, recovery strategies, training and awareness, and exercising/testing.

Lesson 2: Risk Assessment

- Identify risks that can adversely affect an entity's resources or image.
- Assess risks to determine the potential impacts to the entity, enabling the entity to determine the most effective use of resources to reduce these potential impacts.

Lesson 3: Business Impact Analysis

- Identify and prioritize the entity's functions and processes in order to ascertain which ones will have the greatest impact should they not be available.
- Assess the resources required to support the business impact analysis process.
- Analyze the findings to ascertain any gaps between the entity's requirements and its ability to deliver those requirements.

Lesson 4: Business Continuity Strategies

- Select cost-effective strategies to reduce deficiencies as identified during the risk assessment and business impact analysis processes.

Lesson 5: Incident Preparedness and Response

- Develop and assist with the implementation of an incident management system that defines organizational roles, lines of authority and succession of authority.
- Define requirements to develop and implement the entity's incident response plan.
- Ensure that incident response is coordinated with outside organizations in a timely and effective manner when appropriate.

Lesson 6: Plan Development and Implementation

- Document plans to be used during an incident that will enable the entity to continue to function.

Lesson 7: Awareness and Training Programs

- Establish and maintain training and awareness programs that result in personnel being able to respond to incidents in a calm and efficient manner.

Lesson 8: Business Continuity Plan Exercise/Test, Assessment and Maintenance

- Establish an exercise, assessment and maintenance program to maintain a state of readiness.

Lesson 9: Crisis Communications

- Provide a framework for developing a crisis communications plan.
- Ensure that the crisis communications plan will provide for timely, effective communication with internal and external parties.

Lesson 10: Coordination with External Agencies and Resources

- Establish policies and procedures to coordinate incident response activities with public entities.

Risk Management -

Lesson 1: Analyzing the Business Model

Lesson 2: Designing Organizational Risk Strategies

Lesson 3: Implementing Risk Process

Lesson 4: Developing Organizational Risk Competency

Lesson 5: Supporting Decision Making

For in-person courses:

This course will be held in-person and the exam will be online, at leisure. A computer is required for this course in order for you to take the exam. The system requirements will be sent to you via email together with information about how to access the course materials prior to the start of the course.

For courses held online:

All online courses are held via Zoom and a computer is required for this course. The system requirements will be sent to you via email together with information about how to access the course materials prior to the start of the course. You will also be provided with instructions for how to take the exam online, at leisure following the course.

For international courses:

This course is being hosted by a DRI International partner. To register, you will be asked to provide your contact information and we will put you in touch with the local team for details.

For courses held pre-conference:

This course is being held in-person prior to the DRI Annual Conference at or near the conference venue. You can then attend the conference immediately following your course with an additional registration (separate fee applies).
