April 7, 2025

**Dîner conférence professionnel de DRI Canada**

**Hotel Bonadventure**

**900, rue de la Gauchetière Ouest**

**Montreal, QC H5A 1E4**

11:30 AM - 02:00 PM EST

*Le conseil d'administration de DRI Canada est heureux d'organiser un déjeuner de développement professionnel à Montréal le 7 avril 2025 pour les professionnels certifiés.*

*Hotel Bonadventure*

*Améliorer la réponse aux incidents par la refonte complète du programme de gestion de la continuité des activités*

*Conférencier: Bruno Riendeau, Directeur de la gestion des risques d'entreprise et de l'environnement à VIA Rail Canada*

*L'existence de plans et de protocoles multiples et bien définis, associée à des personnes compétentes et expérimentées, toujours disponibles et prêtes à aider, sont des atouts importants pour faire face aux perturbations opérationnelles qui peuvent se transformer en situations d'urgence ou de crise. Cependant, ces deux éléments ne garantissent pas l'efficacité et le succès. Cette session utilise les leçons tirées de la gestion d'événements pour discuter des éléments clés d'un programme solide de gestion de la continuité des activités, ainsi que des défis liés au développement et à la mise en œuvre d'un programme amélioré dans le cadre des opérations existantes.*

*20\$ pour les professionnels certifiés*

*50\$ pour les professionnels non certifiés*

*Cette série d'événements engageants réunit des leaders de l'industrie et des experts en la matière, offrant des perspectives, des stratégies et des outils inestimables adaptés aux défis uniques de notre domaine.*

*La session proposera une présentation stimulante, des discussions interactives et des enseignements pratiques pour vous aider à garder une longueur d'avance dans ce secteur en constante évolution. Rencontrez vos pairs, élargissez vos connaissances professionnelles et dégustez un délicieux déjeuner tout en améliorant votre expertise.*

*Rejoignez-nous pour le savoir, le réseautage et la nourriture !*

- CRLE 2000 - Cyber Resilience May 12-15, 2025 Online**  
**Online GoToMeeting**  
09:00 AM - 05:00 PM EST  
*Organizations today are confronted by a wide range of cyberattacks, and your organization is no exception. There are countless opportunities for hackers to cause massive disruptions, all of which will require a response that will involve you. That's why this course is an absolute must. More than just another statement of the problem, Cyber Resilience for the Business Continuity Professional is an information-packed three-day experience that will provide an understanding of how to address cyber disruptions within a business continuity framework.*
- You'll discover how business continuity and cybersecurity must integrate within every organization, using the five elements of cyber resilience: prepare/identify, protect, detect, respond, and recover. Collectively, these concepts and the resulting action plans will help to develop a strategy to effectively respond to unforeseen events and get your organization back up and running as quickly as possible. These two traditionally separate functions must work together, and with this course, you'll be able to take steps to make that happen in your organization. Doing so will streamline well-coordinated identification and response to attacks or data breaches, minimize costs, protect the organization's reputation, and give you the professional advantage of bringing the most current information and skills to the table.*
- Instructor: Ann Wyganowski*
